

SOLT Wireless Calling System

High Performance! Inimitable Designs!

High Quality and Reliability!

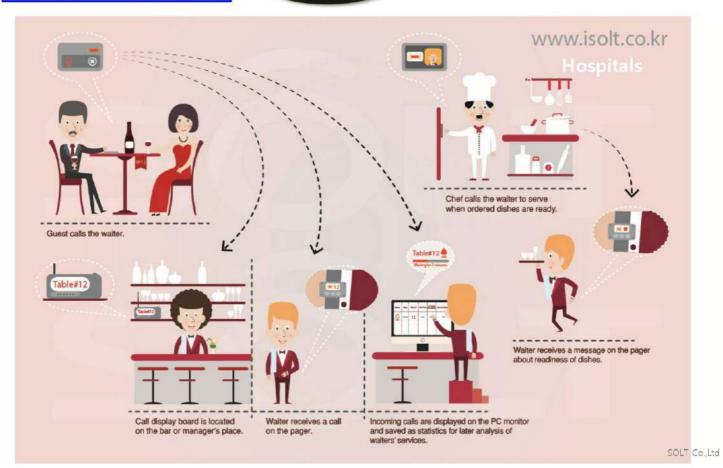

Product Application Fields

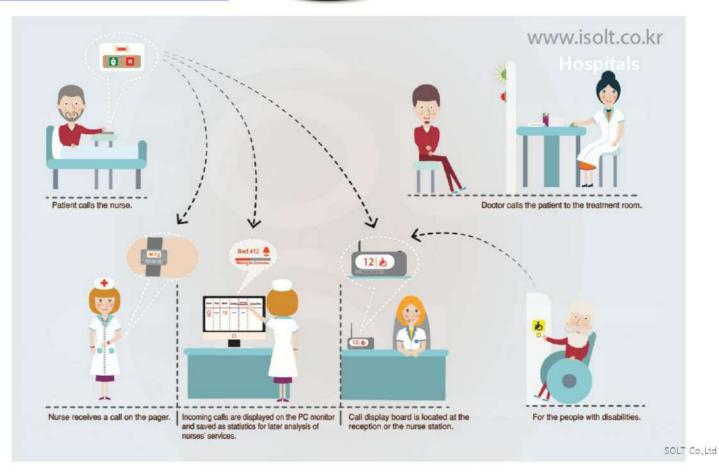

Restaurants

Product Application Fields

Transmitters **Outstanding Features of Solt system**

Transmitter

Frequency Type: FSK

Accuracy and Stability of call...AM type not comparable

CPU Embedded(TI solution)

No duplication of bell ID...Remote IC not comparable

Transmission Controllable

Battery saving, No interference to other bells

Others

Longer call distance, Battery saving algorithm

Outstanding Features of Solt system

Frequency Type: FSK

Accuracy and Stability of call receiving... AM not comparable

TCXO-based RF

Low RF variation, No clock defect, RF changeable...not X-tal

Variety of Function

Sound selectable(22), Volume controllable(9 steps) etc.

System Configuration

N(multiple) to N transmitter and receiver configuration

Mobile Receiver

Frequency Type: FSK

Accuracy and Stability of call receiving...AM not comparable

TCXO-based RF

Low RF variation, No clock defect, RF changeable...not X-tal

Direct Call Receiving

Direct call receiving from bells(no need transceiver)

Others

Rechargeable Lithium battery, Robustness etc.

Extension of call reach range

Call reach distance is about 100m (based on Open Field)

For extending signal reach distance and covering shaded area, use repeaters.

SR5-MPR and		146 X 90 X 32	116	AC/DC12V Adapter	Display : 1.3"LCD(back side) Available bell ID : 500 pcs Bell ID registration method : by air	Antenna: external dipole antenna Signal receiving: FSK 360° omnidirectional PC Interface: via RS-232 Converter
PC MONITORING PROGRAM					Call Display Call Data management	4 programs included; — Map Type call only — Map Type call-cancel — Stack Type call only — Stack Type call-cancel

TRANSCEIVER

[REPEATER]

MODEL	IMAGE	Display	BASIC FUNCTION	SIZE	WEIGTH (g)	POWER	FEATURES	USER SET ITEMS
SR5-BPR		1.3*LCD on back side	Extension of signal reach distance between bell and receiver	146(W) 90(H) 32(T)	116	AC/DC12V external adaptor Adapter	Available bell ID: 500 pcs Bell ID registration method: by air or by SPM(Solt PC Manager)	Transmission delay time Mount point: Wall or ceiling Easy all bell ID deletion Easy consecutive bell ID register

APPLICATION ITEMS

[TRANSMITTERS]

MODEL	IMAGE	CATEGORY	ORIGIN MODEL	APPLICATION FIELDS	FUNCTIONALITY	SPECIFICATION
SB5-1PWH-P		Transmitter (call only)	SB5-1PWH	Hospitals	Wired Push-button	Push-button cable: 1.5 m
SB6-2XWH-P		Transmitter (call-cancel)	SB6-2XWH	Hospitals	Curl-wired Push-button (Fixed)	Push-button cable: 1.5 m
SB6-2XWH-PD	0	Transmitter (call-cancel)	SB6-2XWH	Hospitals	Straight-wired Push-button (Detachable)	Push-button cable: 1.5 m
SB6-2XWH-F		Transmitter (call-cancel)	SB6-2XWH	Hospitals	Wired Stepping button	Step-button cable : 1.5 m
SB6-2XWH-S	•	Transmitter (call-cancel)	SP5-1PWH	Hospitals	Pull-String button	Pull -String cable: 1.0 m
SB6-DOP	9	Transmitter (call only)	SB6	Hospitals Offices	Magnet Sensing of door opening	Bell part and Magnet part
SB6-PMP		Transmitter (call-cancel)	SB6	Hospitals	Magnet Sensing of Patient's movement	Bell part and Magnet part
STS-100FM		Transmitter (call-cancel)	SB6	Hospitals	Stepping Sensing	Mat(sensing part) and Bell Part
SB9-1P**-M	(+04.7 () () () () () () () () () (Transmitter (call-cancel)	SB9-2X	Hospitals Shopping malls Super markets etc	Magnet Sensing Cancel Button	Bell part and Magnet part
